Featured Employee
We would like to introduce you to:

MEGAN CRUM

Megan was born and raised in Greeneville, TN. She enjoys playing golf and taking Zumba dance classes when she has time. Megan adopted a Labrador Retriever, Eli, in 2009 and he is a big part of her life. Eli loves going for rides in the jeep and he is a great companion.

Other interesting tidbits: Megan began playing golf competitively in high school, earning a berth to the State tournament her senior year.

Journey to M&C

Megan began her college career at Tennessee Tech University with a partial scholarship to play golf. Her intentions were to major in accounting, but she decided to change her field of study because the University is known for being a creditable engineering school. She wanted to graduate in four years and she quickly realized that she would need to make a choice to give up her scholarship to focus on her studies full-time. Megan graduated in 2011 with a B.S. in Civil Engineering. After college, she went back to Greeneville and worked at the Consumer Credit Union as a bank teller while she looked for a position in her field.

Megan became acquainted with M&C through Randy Dodson when his daughter was planning her wedding at a retreat center where Megan was doing volunteer work. She was granted an interview and though she didn't receive an immediate offer, she continued to stay in contact with Randy Dodson. After much persistence, she was offered a position as a Transportation Engineer in April 2012. Megan says that she couldn't ask for a better company or better people to work with. Megan has been with M&C for 8 months.
