Featured Employee
We would like to introduce you to:

HUDSON OWEN

Hudson was born in Wales, United Kingdom. He met his wife, Tina, while working in Africa and then moved to Asheville, NC, 16 years ago. Hudson enjoys mountain biking, hiking, white water canoeing, and having fun with his family. He and Tina have 3 kids: Caleb (13), Elissa (10), and Merryn (8).

Journey to M&C

Hudson studied Civil Engineering at the University of Portsmouth and took a year off after graduation to build a rural hospital in Uganda. Once he returned to London, he worked for a Coastal and Port design firm on projects in Myanmar, Cyprus and The Channel Islands.

Since moving to Asheville, NC, Hudson has worked for 12 years with Land Design on the design and permitting of a number of large master planned resorts with golf courses, mountain roads, and challenging water/waste systems.

Hudson joined M&C in March 2012 and he enjoys working with the Asheville team. He is currently working on the City of Asheville infrastructure improvements to support the East Coast New Belgium Brewery. Hudson says "after the recent downturn in the economy, it is great to be working for a busy, local engineering firm with a variety of interesting projects." Hudson has been with M&C for 10 months.
